Libbey for Life

Libbey for Life

Libbey is the glassware for professionals. It has been around since 1818 and has developed into an authentic brand with clear roots. That development process never ends; Libbey is constantly reinventing itself.

Libbey feels very strongly about quality, as witnessed by its outstanding product guarantees. Also its design is distinctive, timeless and creative. And above all Libbey glassware is strong and lasts a particularly long time, even when used frequently.

Worldwide, Libbey has established a solid reputation as the glassware for professionals. Professionals can spend an entire career trusting on them. Professionals choose Libbey. Libbey for Life!

Duratuff

The DuraTuff process is performed only on the upper portion of the glass increasing its resistance to thermal and mechanical shock.

Why are Libbey's Processes tough To beat?

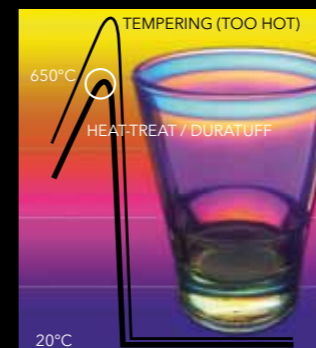

BARWARE TOUGH

Libbey's DuraTuff® treatment is a super strengthening thermal afterprocess for "pressed" tumblers and stemware. A similar process is used on blown ware products. Those item numbers are designated with an "HT". The DuraTuff process is performed only on the upper portion of the glass increasing its resistance to thermal and mechanical shock. It produces some of the most durable glassware in the industry. It's barware tough.

What is the difference between DuraTuffing and tempering? Libbey's exclusive processes were developed not only to reduce breakage and chipping, but to also change HOW a glass breaks - an important safety consideration in foodservice operations. Fully tempered glass is unstable. Inappropriately tempered glassware shatters in an explosive manner. It breaks into smaller jagged pieces that can travel long distances potentially contaminating ice bins or salad bars.

The need for product replacement due to breakage and chipping affects your bottom line. Libbey's toughening processes produce glassware that stands up to more servings which means more profits for you.

You can count on Libbey to deliver a smarter, safer, more durable and profitable glass every time - and that's a tough combination to beat!

TUFFGLASS BY LIBBEY

Libbey's heat treating process quickly raises the temperature of glass from about 20° C to almost the melting point (650° C) then quickly cools the glass in a controlled manner. The result can be seen in this polarized light photo which shows when the internal strength of glass has been increased.

Treating just the upper third of the glass at a lower temperature than tempering puts less stress on the glass and positively affects HOW the glass breaks as well as improving overall durability.

RIM TOUGHENED DURATEMP EDGE

Libbey's SheerRim D.T.E.® (Dura Temp Edge) stemware and tumblers feature a beadless edge which is first cracked-off then polished to produce a fine, yet durable edge. This creates a combination of elegance and affordability in glassware for operators looking to upgrade their beverage service, while still maintaining longer service life.

✕ SheerRim D.T.E.®

The SheerRim D.T.E.® guarantee covers all products with a crack-off rim. If the rim of any glass covered by the guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

SheerRim D.T.E. glassware includes: Envy • Endessa • York • Chicago

TOUGHSTUFF WE GUARANTEE IT!

● Safedge® Rim Guarantee

If the rim of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/ distributor from whom it was originally purchased.

■ Safedge® Rim&Foot Guarantee

If the rim or foot of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer / distributor from whom it was originally purchased.

✘ SheerRim D.T.E.®

The SheerRim D.T.E.® guarantee covers all products with a crack-off rim. If the rim of any glass covered by the guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

★ Heat-Treated

Libbey's heat-treated glassware offers increased resistance to thermal and mechanical shock. This secondary process on 'blown' glassware is performed only on the upper portion of the glass where most abuse occurs.

Of course, these guarantees do not cover breakage.

Libbey for Life

guaranteed against
unsightly chipping

TWO-PIECE ELEGANCY

The combination of elegance and affordability is perfect for operators looking to upgrade their beverage service while still maintaining the durability and safety necessary in a foodservice operation.

● Safedge® Rim Guarantee

If the rim of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

✕ SheerRim D.T.E.®

The SheerRim D.T.E.® guarantee covers all products with a crack-off rim. If the rim of any glass covered by the guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

Safedge Rim guarantee includes: Endura • Fortius • Spirit • Grande Collection

ONE-PIECE TOUGH

One-piece stemware is one of Libbey's best selling stemware products for good reason. It is specifically designed for high-turnover, fast-paced restaurant operations where safety and durability are of utmost importance.

One-piece stemware is inherently stronger than other stemware. Formed from one piece of glass, there are no weak points where stem and/or foot are joined with bowls. Libbey's precision burners produce a rim with a minimum bead and a rounded foot that is more resistant to unsightly chipping. The glass is also designed to be thicker at the contact points for added strength needed in rigorous handling. Longer product life means more savings and more profit per serving for operators. In fact, your investment starts paying back profits after just one serving. And Libbey feels so strongly about one-piece construction, it has backed it with the exclusive Safedge® Rim and Foot guarantee.

One-piece stemware strikes the perfect balance of weight, functionality, and aesthetics. It's the proven leader in the industry for durability and reliability.

■ Safedge® Rim&Foot Guarantee

If the rim or foot of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer / distributor from whom it was originally purchased.

Creating lasting memories with Libbey signature drinks...

Customers drink with their eyes. Choosing the right glass makes all the difference for great presentation and profit per serving.

Glassware is an investment that pays for itself after only one use. Decorate your glassware to promote your cocktail offering. Create specialty cocktails that appeal to your customers and build your brand.

Presentation is key! Prepare the drink in front of the customer to create a sense of theatre and pizzazz.

Use regional and artisanal ingredients.

Mocktails or Virgin cocktails. Providing a wonderful assortment of non-alcoholic drinks can boost sales & profits.

Libbey signature drinks are fun and lead to a memorable experience.

BEERS

Libbey for Life

"We use one of Libbey's glasses as our signature glass for ten years now. It is a first-class glass, long-living but elegant with unbeatable haptics."

Theerapol (Thery) Kindt, East Hotel, Hamburg

Libbey provides the largest assortment of beer glasses to the foodservice industry. So you can give your entire beer offering unique presentations – whether craft brews or classic favorites.

The right glass for the right beer really does improve a beer's taste, aroma and aesthetic. Each of our glasses has been designed to maximize the flavor, aroma and presentation of the beer it contains.

Add some fizzazz to your glass!

Our exclusive laser etching after-process on the inside bottom accelerates the release of CO₂ creating increased effervescence that boosts the aroma and flavor of beer and promotes the retention of a nice foamy head.
